About Me

I am passionate about exploring the world of web development, with a focus on HTML, CSS, and JavaScript to craft visually appealing and interactive user interfaces.

Skills

- Frontend Developer
- Backend Developer
- UX / UI Design
- Critical Thinking

Education

2024 - NOW

King Mongkut's Institute of Technology Ladkrabang
School of Industrial Education and Technology

Experience

2023 - 2024

Project
Restaurant Management Systems
Designed to help organize internal restaurant operations, from menu selection to order management. This system simulates the real workflow of a sushi restaurant, focusing on restaurant operations rather than visual aesthetics.

2024 - 2024

Project
Smart Learning Hub
A Learning Management System (LMS) similar to Google Classroom, but with a key distinction: it is built for genuine learning, not merely for submitting assignments and grading.

Hobby

- Write code / Develop a project
- Listen to music / Watch movies / Play games
- Read novels
